

United States Senate

COMMITTEE ON FINANCE

WASHINGTON, DC 20510-6200

April 21, 2010

Via Electronic Transmission

Kenneth S. Fink, M.D.
Division Administrator
Hawaii Department of Human Services Med-Quest Division
State of Hawaii
1390 Miller Street
Honolulu, HI 96813

Dear Dr. Fink:

In the United States, the federal and state governments spend roughly \$317 billion every year on the Medicaid program. As Ranking Member of the Senate Committee on Finance, I have an obligation to ensure that taxpayer dollars are appropriately spent on federal health care programs. Like the Medicare program, Medicaid suffers from systemic weaknesses that lead to fraud, waste, and abuse across the program, resulting in higher costs and less health care to those who are in need. The overutilization of prescription drugs, whether through drug abuse or outright fraud, plays a significant role in the rising cost of our healthcare system. The purpose of this letter is to request information regarding certain outliers in Hawaii's Medicaid program and what steps Hawaii takes to monitor rates of utilization.

In recent inquiries, I have asked the U.S. Department of Health and Human Services about physicians prescribing mental health drugs at astonishingly high rates. In addition to these concerns, a recent CNN report detailed the increasing abuse of OxyContin, Roxicodone, and Xanax. Specifically, the report described the role some pain management clinics and physicians play in the black market for these drugs. I write today to better ascertain how high rates of both mental health and pain medication utilization are affecting the Medicaid program, as well as how Hawaii's rates compare to the national rates.

To that end, please provide charts that list of the top ten Medicaid prescribers of the following drugs for the years 2008 and 2009. For each prescriber, please provide his/her prescriber identifier, and the number of prescriptions written per drug per year, and the total amount billed to Medicaid per drug, separated for each year.

- Abilify;
- Geodon;
- Seroquel;
- Zyprexa;
- Risperdal;

- OxyContin;
- Roxicodone; and
- Xanax.

I thank you in advance for your cooperation and request that you provide the requested documents and written responses by no later than May 5, 2010. In your reply, please format information into a chart like the examples provided below. All formal correspondence should be sent electronically in PDF format to Brian_Downey@finance-rep.senate.gov or via facsimile to (202) 228-2131. Of course should you wish to discuss this matter further, please do not hesitate to contact Christopher Armstrong of my Committee staff at (202) 224-4515.

Sincerely,

Charles E. Grassley
Ranking Member

VIA ELECTRONIC TRANSMISSION

Loretta J. Fuddy
Director, Department of Health
1250 Punchbowl Street
Honolulu, HI 96813

Dear Director Fuddy,

Your state provided my office with data regarding the top ten prescribers of several pain management and mental health drugs in your state. These types of drugs have addictive properties, and the potential for fraud and abuse by prescribers and patients is extremely high. Mental health drugs continue to be prescribed at astounding rates and pain management clinics are turning into a hotbed for black market painkillers. When these drugs are prescribed to Medicaid patients, it is the American people who pay the price for over-prescription, abuse, and fraud.

After an extensive review of prescribing habits of the serial prescribers of pain and mental health drugs in your state, I have concerns about the oversight and enforcement of Medicaid abuse in your state. While I am sensitive to the concerns of misinterpretation of the data you provided, the numbers themselves are quite shocking.

For example, the top prescriber of OxyContin prescribed nearly double the amount prescribed by the second provider on the list and more than four times the tenth prescriber. These outliers are consistent with several of the antipsychotic drugs as well—with the top prescribers writing double or triple the number of prescriptions as the other prescribers on the list.

It is my intention to ensure that each of the states is adequately monitoring, investigating, and stopping fraud and over-prescription of these types of drugs. Therefore, please provide answers to the following questions:

1. What action, if any, has your agency taken with respect to the prescribers identified to the Committee?
2. If there has been no action taken with respect to these prescribers, please explain why not.
3. Please identify which of the providers identified to the Committee, remain eligible to bill the Medicaid Program.
4. Please provide the 2010 and 2011 numbers for the top prescribers of these same drugs.
5. Has each of these prescribers been cross-checked for complaints or misconduct with the state medical board or the National Practitioner Data Bank? If not, do you plan to do so?
6. Have any of the prescribers identified to this Committee been referred to your state medical board?
7. Is there any system set up in your state to identify and monitor excessive prescription writing? If not, why not?
8. Have you received any training or guidance from the Centers for Medicare and Medicaid Studies to help identify potential issues with prescription drugs?
9. Does your state maintain a database of all prescribed controlled-substances? If so, what entities have access to it?
10. Does your state have any point-of-sale restrictions related to maximum units, prior authorization, therapeutic duplication, or early refill? If not, why not?
11. Were any of these top ten prescribers identified in the federal-mandated Drug Utilization Review or CMS-base retrospective reviews?
12. Does your state have any programs in place to educate providers about the prescription of antipsychotics to children and adolescents?

Thank you in advance for your cooperation and attention in this matter. When responding to this letter, please number your answers in accordance with my questions. I would appreciate a response by February 13, 2012. If you have any questions, please do not hesitate to contact Erika Smith of my staff at (202) 224-5225.

Sincerely,

A handwritten signature in blue ink that reads "Chuck Grassley". The signature is written in a cursive, flowing style.

The Honorable Senator Charles E. Grassley
Ranking Member
United States Senate, Committee on the Judiciary
135 Hart Senate Office Building
Washington, DC 20510-6275

Dear Senator Grassley:

This is in response to your letter dated January 23, 2012, regarding the top ten prescribers of pain management and mental health drugs in our state. Please see responses below:

1. What action, if any, has your agency taken with respect to the prescribers identified to the Committee?

One of the providers from the OxyContin prescriber list and two providers from the Xanax list have been terminated from the Medicaid program. There are two providers on the list that are under investigation by Federal agencies.

An internal review of the providers identified showed that a number of these providers are working in the Adult Mental Health Division of the Department of Health, or are providers at one of Hawaii's private inpatient mental health facilities. In both instances, these providers deal with the most severely mentally disabled and would be expected to be outliers for psychotropic medications.

2. If there has been no action taken with respect to these prescribers, please explain why not.

N/A

3. Please identify which of the providers identified to the Committee, remain eligible to bill the Medicaid Program.

All but the three terminated providers currently remain eligible to bill. The two under investigation are eligible pending the outcome of the investigations.

4. Please provide the 2010 and 2011 numbers for the top prescribers of these same drugs.

The 2010 and 2011 data will be sent at a later date. We are currently working with the health plans in obtaining these data.

5. Has each of these prescribers been cross-checked for complaints or misconduct with the state medical board or the National Practitioner Data Bank? If not, do you plan to do so?

Prescribers are checked against the List of Excluded Individuals/Entities (LEIE) and the State licensing medical Board at the Department of Commerce and Consumer Affairs.

6. Have any of the prescribers identified to this Committee been referred to your state medical board?

Providers have been referred to the Department of Commerce and Consumer Affairs.

7. Is there any system set up in your state to identify and monitor excessive prescription writing? If not, why not?

Prior to 2009, the monthly fee for service reports by the pharmacy benefits manager would show any excessive prescribing in the Medicaid FFS program. From 2009 to present, 98% of the prescriptions are processed by the contracted managed care organizations. The Narcotics Enforcement Division of the Department of Public Safety monitors Hawaii's controlled substances prescriptions.

8. Have you received any training or guidance from the Centers for Medicare and Medicaid Studies to help identify potential issues with prescription drugs?

Training has been received at the Centers for Medicare & Medicaid Services Medicaid Integrity Institute located at the National Advocacy Center in South Carolina. Guidance is also available from the CMS Medicaid Integrity Group (MIG).

9. Does your state maintain a database of all prescribed controlled-substances? If so, what entities have access to it?

The Narcotics Enforcement Division maintains a database called the Hawaii Electronic Prescription Accountability System. Entities that have access include physicians and law enforcement agencies by written request.

10. Does your state have any point-of-sale restrictions related to maximum units, prior authorization, therapeutic duplication, or early refill? If not, why not?
The FFS program has point of sale restrictions related to maximum units, prior authorizations, therapeutic duplication and refill. The managed care plans have this process as well; however they may or may not be alike for the same medication.

11. Were any of these top ten prescribers identified in the federal-mandated Drug Utilization Review or CMS-base retrospective reviews?

No.

12. Does your state have any programs in place to educate providers about the prescription of antipsychotics to children and adolescents?

Low-income children and adolescents receive services for severe emotional or behavioral disorders through the Department of Health Child and Adolescent Mental Health Division.

Sincerely,

Kenneth S. Fink, MD, MGA, MPH
Med-QUEST Division Administrator

Med-QUEST Division Administrator

MEDICAID PROVIDER EXCLUSION/REINSTATEMENT LIST
Updated 06/01/11

FOR A COMPREHENSIVE LISTING OF THOSE INDIVIDUALS EXCLUDED FROM RECEIVING REIMBURSEMENT FOR PROVIDING MEDICARE AND MEDICAID SERVICES NATIONWIDE, SEE THE OFFICE OF INSPECTOR GENERAL'S WEBSITE, LIST OF EXCLUDED INDIVIDUALS/ENTITIES (LEIE), by following this link, <http://oig.hhs.gov/fraud/exclusions.asp>

If someone is on the LEIE, they are not allowed to receive reimbursement for providing Medicare and Medicaid services in any capacity even if they are not on this listing by the Med-QUEST Division.

The list provides the last known provider type that the individual or business was at the time of exclusion; however, they are excluded from participating in providing services in the Medicaid program in **all** categories of service and in any capacity. The exclusion remains in effect until they are removed from this list.

Any provider participating or applying to participate in the Medicaid program must search Hawaii's excluded provider list monthly and the LEIE annually to determine if any existing employee or contractor has been excluded from participation in the Medicaid program. In addition, any provider participating or applying to participate in the Medicaid program must search both lists prior to hiring staff to ensure any potential employees or contractors have not been excluded from participating in the Medicaid program.

Newly added sanctioned providers are highlighted in yellow (Note: The list is updated monthly.)
